## SUMMARY

I am a dedicated Full Stack Developer with 2 + years of experience in designing and implementing responsive, user-friendly websites and web applications. Proficient in front-end technologies like HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, and frameworks such as React, Next.js, I also specialize in back-end technologies, including Node.js, Express.js, and MongoDB. I am passionate about learning new technologies to stay updated with industry trends and continually improve my skills, enabling me to build scalable, efficient solutions and deliver seamless user experiences.

---

## EXPERIENCE

### Full Stack Developer

#### FreedyGo

March 2023 - June 2025, Pune

- At Freedygo, I work as a Full Stack Developer, building both the front-end and back-end of web applications. On the front-end, I create responsive, user-friendly interfaces using HTML5, CSS3, Tailwind CSS, JavaScript, and Next.js, , React. On the back-end, I work with Node.js, Express, and database MongoDB to develop scalable, secure server-side logic.
- Integrated RESTful API endpoints and real-time data synchronization, ensuring seamless communication between client and server while enhancing overall application reliability and performance.

---

## PROJECT

### Skillotech

FreedyGo • [www.skilotech.com/](http://www.skilotech.com/)

- For Skillotech, I design and develop a platform that serves as a job portal and a resume creation website. I create interactive user interfaces for job seekers and recruiters, build secure and efficient back-end systems for managing user data, and implement features such as job listings, applicant tracking, and a resume builder. My focus is on ensuring a seamless and user-friendly experience while maintaining data security and performance optimization

### FreedyGo

FreedyGo • [www.freedygo.com/](http://www.freedygo.com/)

- As a Full Stack Developer at FreedyGo, I create and implement both front-end and back-end solutions to enhance the e-commerce platform. I develop responsive user interfaces, manage databases, build APIs, and ensure seamless integration between the client and server. My work focuses on creating a smooth user experience by implementing features like product browsing, cart management, and real-time order tracking while maintaining secure payment systems and scalable architecture.

---
